

You work hard enough.  
You shouldn't have to work  
hard at getting paid, too.

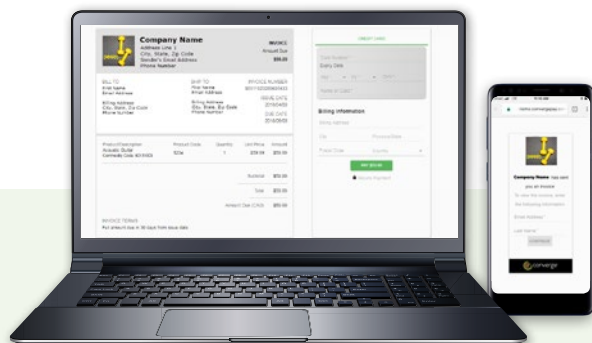

## It Pays to Be Flexible

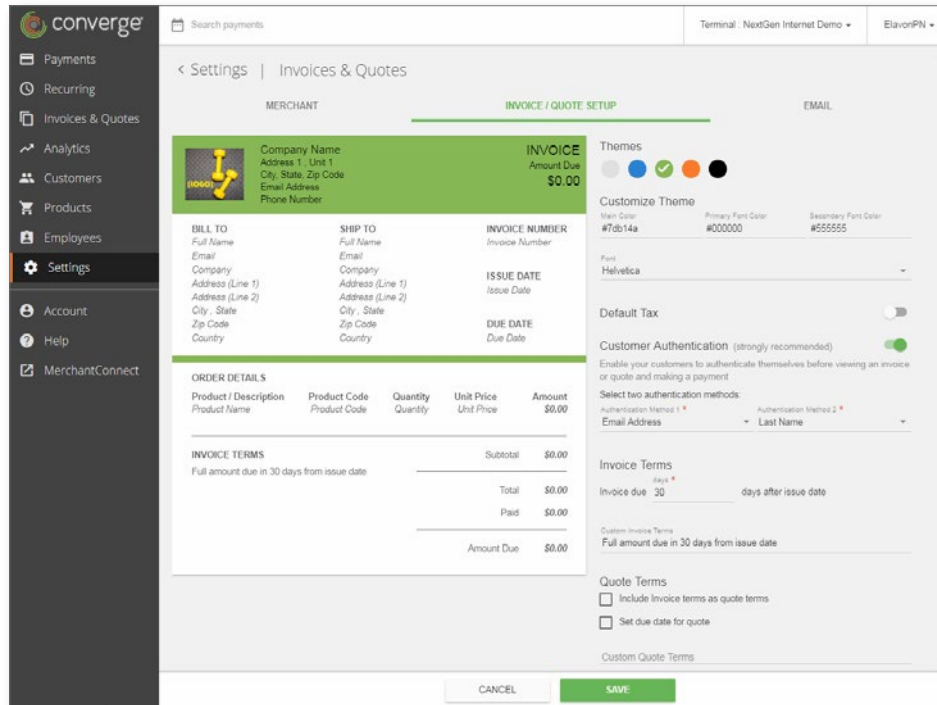

### Give your business a boost with Converge Billing and Invoicing

Quote orders or projects. Invoice for products and services. Collect and track payments. You can do it all with Converge Billing and Invoicing. You'll give your customers the ease of paying online – and you'll get so much more:

- All the convenience of online payments, none of the risk
- Less expensive, more convenient email quoting and invoicing
- Up-to-the-minute status on quotes and invoices
- Real-time payment confirmation
- Fast Track Funding (as early as next business day)
- Peace of mind that your customers' payment data is protected
- One payment platform to power every part of your business
- Anytime access to the details and the big picture of your transactions

Your customers can pay you online,  
in person, by phone and email

## Getting started is a breeze

Easily customize our payment page to reflect your brand. When customers click to pay, they'll be linked to the payment form you create where they can safely and securely enter in their payment details. You'll be notified as soon as the payment is made.

## Let customers pay any way they please

Chances are you need to accept payments in more ways than one. No problem! Converge lets your customers pay however they choose – online, in person, by phone, and now, by email too.

The best part? Behind the scenes, you get one comprehensive picture of all of your business transactions – no matter how many terminals or locations you have or how many different ways your customers choose to pay.
